PII findings

SCAN FINISHED - some content needs attention

42 findings | 10 / 10 files processed | 3 attention items

Image reading: on. People's names: on. File limit: 100 MiB. Timeout: 180 seconds.

Potential PII requires review. No findings does not prove that a file contains no PII. Files processed includes files that could not be fully read; see Needs attention.

Sources are relative to the scanned folder. The folder's absolute path is omitted.

The PDF contains no author, computer name, dates, source attachments or document IDs in its metadata. Visible findings still contain sensitive information. Unsupported font characters are written as [U+XXXX].

Surrounding context is omitted.

Finding types

Date of birth: 1

Email: 13

IP address: 1

Payment card: 1

Person: 11

Phone: 5

Social Security number: 5

Street address: 5

Findings

1. Email

Source: handover.txt.gz > handover.txt

Location: text · character 0

Value: d.okonkwo@example.org

Detection: Pattern (pattern / context match)

---

2. Phone

Source: handover.txt.gz > handover.txt

Location: text · character 0

Value: (212) 555-0177

Detection: Pattern (pattern / context match)

---

3. Street address

Source: handover.txt.gz > handover.txt

Location: text · character 0

Value: 742 Evergreen Terrace

Detection: Pattern (pattern / context match)

4. Person

Source: handover.txt.gz > handover.txt

Location: text · character 0

Value: David Okonkwo

Detection: Local model (model score 100%; not a calibrated probability)

5. Email

Source: logs.tar.gz > logs/app.log

Location: text · character 0

Value: maria.hernandez@example.com

Detection: Pattern (pattern / context match)

6. IP address

Source: logs.tar.gz > logs/app.log

Location: text · character 0

Value: 203.0.113.44

Detection: Pattern (pattern / context match)

7. Email

Source: logs.tar.gz > logs/notes.txt

Location: text · character 0

Value: priya.r@example.net

Detection: Pattern (pattern / context match)

8. Phone

Source: logs.tar.gz > logs/notes.txt

Location: text · character 0

Value: +44 20 7946 0958

Detection: Pattern (pattern / context match)

9. Email

Source: nested-outer.zip > layer1/inner.zip > deep/buried.txt

Location: text · character 0

Value: maria.hernandez@example.com

Detection: Pattern (pattern / context match)

10. Person

Source: nested-outer.zip > layer1/inner.zip > deep/buried.txt

Location: text · character 0

Value: Maria Hernandez

Detection: Local model (model score 100%; not a calibrated probability)

11. Email

Source: payroll.7z > staff/contact.txt

Location: text · character 0

Value: tomas.andersson@example.co.uk

Detection: Pattern (pattern / context match)

12. Phone

Source: payroll.7z > staff/contact.txt

Location: text · character 0

Value: 503-555-0119

Detection: Pattern (pattern / context match)

13. Street address

Source: payroll.7z > staff/contact.txt

Location: text · character 0

Value: 10 Downing Street

Detection: Pattern (pattern / context match)

14. Person

Source: payroll.7z > staff/contact.txt

Location: text · character 0

Value: Tomas Andersson

Detection: Local model (model score 100%; not a calibrated probability)

15. Street address

Source: payroll.7z > staff/invoice.txt

Location: text · character 0

Value: 10 Downing Street

Detection: Pattern (pattern / context match)

16. Person

Source: payroll.7z > staff/invoice.txt

Location: text · character 0

Value: Tomas Andersson

Detection: Local model (model score 99%; not a calibrated probability)

17. Email

Source: records.rar > contacts.txt

Location: text · character 0

Value: d.okonkwo@example.org

Detection: Pattern (pattern / context match)

18. Phone

Source: records.rar > contacts.txt

Location: text · character 0

Value: (212) 555-0177

Detection: Pattern (pattern / context match)

19. Street address

Source: records.rar > contacts.txt

Location: text · character 0

Value: 742 Evergreen Terrace

Detection: Pattern (pattern / context match)

20. Person

Source: records.rar > contacts.txt

Location: text · character 0

Value: David Okonkwo

Detection: Local model (model score 100%; not a calibrated probability)

21. Social Security number

Source: records.rar > notes\handover.txt

Location: text · character 0

Value: 456-78-9012

Detection: Pattern (pattern / context match)

22. Payment card

Source: records.rar > notes\handover.txt

Location: text · character 0

Value: 3400 0000 0000 009

Detection: Pattern (pattern / context match)

23. Date of birth

Source: records.rar > notes\handover.txt

Location: text · character 0

Value: DOB 1991-07-24

Detection: Pattern (pattern / context match)

24. Email

Source: team-backup.zip > hr/contacts.txt

Location: text · character 0

Value: maria.hernandez@example.com

Detection: Pattern (pattern / context match)

25. Phone

Source: team-backup.zip > hr/contacts.txt

Location: text · character 0

Value: 415-555-0142

Detection: Pattern (pattern / context match)

26. Street address

Source: team-backup.zip > hr/contacts.txt

Location: text · character 0

Value: 1600 Pennsylvania Avenue

Detection: Pattern (pattern / context match)

27. Person

Source: team-backup.zip > hr/contacts.txt

Location: text · character 0

Value: Maria Hernandez

Detection: Local model (model score 99%; not a calibrated probability)

---

28. Person

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: Maria Hernandez

Detection: Pattern (pattern / context match)

---

29. Person

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: David Okonkwo

Detection: Pattern (pattern / context match)

---

30. Person

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: Priya Raghunathan

Detection: Pattern (pattern / context match)

---

31. Person

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: Tomas Andersson

Detection: Pattern (pattern / context match)

---

32. Email

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: maria.hernandez@example.com

Detection: Pattern (pattern / context match)

---

33. Email

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: d.okonkwo@example.org

Detection: Pattern (pattern / context match)

34. Email

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: priya.r@example.net

Detection: Pattern (pattern / context match)

35. Email

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: tomas.andersson@example.co.uk

Detection: Pattern (pattern / context match)

36. Social Security number

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: 123-45-6789

Detection: Pattern (pattern / context match)

37. Social Security number

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: 987-65-4321

Detection: Pattern (pattern / context match)

38. Social Security number

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: 456-78-9012

Detection: Pattern (pattern / context match)

39. Social Security number

Source: team-backup.zip > hr/2025/payroll.csv

Location: CSV rows 1–5

Value: 321-54-9876

Detection: Pattern (pattern / context match)

40. Email

Source: traversal.zip > ..[absolute path omitted]

Location: text · character 0

Value: maria.hernandez@example.com

Detection: Pattern (pattern / context match)

41. Person

Source: traversal.zip > ..[absolute path omitted]

Location: text · character 0

Value: Maria Hernandez

Detection: Local model (model score 97%; not a calibrated probability)

42. Email

Source: traversal.zip > ok.txt

Location: text · character 0

Value: tomas.andersson@example.co.uk

Detection: Pattern (pattern / context match)
